

HIRAM CASTILLO-MICHEL, Ph.D.

PLACE AND DATE OF BIRTH

Chihuahua, Chih., Mexico/ February 1st, 1979

PRESENT POSITION

Beamline Scientist
X-ray microscopy beamline ID21
European Synchrotron Radiation Facility
B.P.220 - 38043 GRENOBLE Cedex, France
tel : 33 (0)4 76 88 29 48
fax : 33 (0)4 76 88 27 85

EMAIL ADDRESS

castillo@esrf.fr

HOME ADDRESS

34 Rue Gay Lussac
38100 Grenoble

Research interests: Application of synchrotron μ XRF/ μ XANES and μ FTIR for the study of the distribution and biochemical modification of trace elements and nanomaterials in biological samples. In particular, I am interested in the fate and transport of nanomaterials and potentially toxic elements in plants. Since plants are part of the first level in the food chain, they are a main route of entrance of toxic elements in the food chain. These toxic elements and nanomaterials are environmental stressors at the tissue and cellular level, disrupting important biochemical functions in living organisms. The specific localization and chemical form of these stressors at the tissue and subcellular level are the main objects of my research.

EDUCATION

European Synchrotron Radiation Facility

Post-doctoral fellow

Feb 2011 – Jul 2013

University of Texas at El Paso, El Paso, Texas

Ph.D., Environmental Science and Engineering

Graduation: May 2011

Dissertation: “Accumulation, speciation, and distribution of metal(oids) in plants: Applications of synchrotron techniques in environmental sciences”

University of Texas at El Paso (UTEP), El Paso, Texas

M.S., Analytical/Environmental Chemistry

Graduation: December 2005

Thesis: “Biochemical Aspects of Chromium and Arsenic Uptake by Peas (*Pisum sativum*): Effect on Amylase Activity and Elemental Reduction”

Universidad Autonoma de Chihuahua, Mexico

B.S., Chemical Engineering

Graduation: December 2002

FELLOWSHIPS

Advanced Light Source Doctoral Fellowship in residence

January 2010-2011

Awarded by Scientific Support Group of the ALS at the Lawrence Berkeley National Lab

Sistema Nacional de Investigadores Level I CVU 221197

2013-2020

National Council for Science and Technology (**CONACYT**) from the Mexican Federal Government

AWARDS

1. Outstanding Master of Science student with highest GPA. December 2005, El Paso, USA.
2. Outstanding Doctoral student in Environmental Science and Engineering. May 2011, El Paso, USA.
