SPONSORSHIP PROPOSAL

WIRMS 2019 – 10th International Workshop on Infrared Microscopy and Spectroscopy with Accelerator Based Sources *September 23th to 27th*

We are glad to announce that the 10th edition of International Workshop on Infrared Microscopy and Spectroscopy with Accelerator Based Sources – WIRMS 2019 – will be held in Brazil, from September 23rd to 28th, 2019.

The workshop program includes a first-day-schedule (Sep 23rd) at the Brazilian Center for Research in Energy and Materials (CNPEM), in Campinas (SP), and the following days at Itamambuca EcoResort, in Itamambuca beach (Ubatuba, SP).

Promoted by the Brazilian Synchrotron Light Laboratory (LNLS/CNPEM), the WIRMS 2019 will highlight the latest advances in infrared spectroscopy and imaging inside synchrotron and free electron laser facilities.

The event will gather around 100 participants, including infrared spectroscopy experts in several modalities such as ultra-resolved chemical imaging, vibrational analysis at extreme environments, THz spectroscopy, new infrared sources and detectors, time-resolved chemical analysis, infrared spectral-tomography among others.

In an overwhelming environment that mix tropical rainforest, rocks and beautiful beaches, we expect WIRMS 2019 to be a great occasion for connecting ideas and for discussing future perspectives of the community under the light of new light sources, including the arrival of 4th generation storage rings.

WIRMS is an excellent opportunity for your company to interact with researchers from several universities and science institutions from all over the world. We cordially invite your company to announce products and services during the workshop by choosing the sponsorship package that best fits your company strategies and profile.
